

You are not alone. There are 10 million women in Canada over the age of 40, making up more than one-quarter of the population. Our needs related to menopause have largely been ignored.

Basic information about symptoms, long-term health risks and facts about treatment options remain mysteries every woman must solve for herself.

The **Menopause Foundation of Canada** is working to change that.

Guided by a Medical Advisory Board that includes many of Canada's leading menopause specialists, we're breaking the silence and stigma of menopause. We're advocating to close the menopause knowledge gap, improve access to menopause care and treatment, and to create menopause inclusive workplaces.
